- After Effects

Education

Recording Arts Canada, Toronto, ON.   **Jan - Dec, 2010**
Game Design Graduate

Uxbridge Secondary School, Uxbridge, ON.   **Sep 2005 - June 2009**
Recieved the award for Excellence in Graphic Arts Design upon graduation

Game Programming Major School Projects

J5Films.ca   **March - April, 2010**
I created this website using XHTML 1.1, CSS 3, Javascript, PHP, and XML; it is validated by the W3C (World Wide Web Consortium). The website features some of my games, videos, and pictures that I have created.

Space Troubles   J5Films.ca/Games/SpaceTroubles/   **Dec. 6 – 16, 2010**
This project was the first game that I programmed entirely in C#; it was also a test to see the polycount limits of the Unity engine.

Ultimate Reality Rumble   J5Films.ca/Games/URR/   **Sept. – Dec. 17, 2010**
This was the final project for my course at RAC. It was programmed partly in C# and partly in Unity Javascript and created using the Unity engine.

Shoot The Moon   J5Films.ca/Games/ShootTheMoon/   **Nov. 8 – 25, 2010**
A fun space shooter with many features and powerups, using the Unity engine.

Work Experience

Uxbridge Music Hall, Uxbridge, ON.   **2005 – Present**
Certified Technician - worked with production directors to utilize technical assets and deliver outstanding creative results. Managed the process of setting up lights, programming cues, setting up audio, and running both sound and lights during shows.

Roxy Theatres, Uxbridge, On.   **April 2008 – Present**
Projectionist - Independently managed the process of loading film projectors, starting movies on time, and trouble shooting potential issues. Responsible for balancing tills and overseeing large cash balances.

Bell World, Uxbridge, On.   **Sept – Dec, 2009**
Sales Rep - Developed strong interpersonal skills while solving customers technical problems; Drove business results by helping customers choose phones and plans that would help maximize store revenues.
